Project Evaluation Rubric

Criteria	Points
Does the code compile without errors?	20
Does the code run without crashing?	10
Is the code functionally complete?	20
Does the code use inheritance properly?	10
Is the code commented properly?	5
Is code indentation proper, is code readable?	5
Is BulletList implemented correctly (objects added/deleted to/from linked list)?	10
Does project report conform to the template?	5
Project report quality	15

Remark: Code sharing will not be tolerated. You need to implement the project and write the project report on your own.
